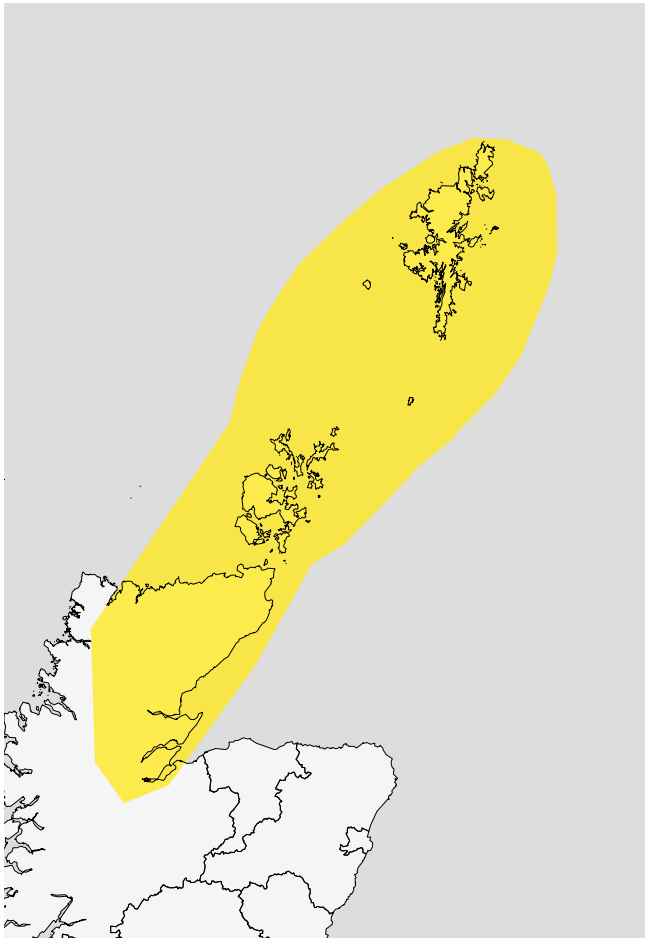
Yellow warning
**Ice**

Between
**17:00 Fri 19 Jan 2024** and
**09:00 Sat 20 Jan 2024**



## Ice may lead to some travel disruption on Friday night and early Saturday.

### What to expect

- Some injuries from slips and falls on icy surfaces
- Some icy patches on some untreated roads, pavements and cycle paths

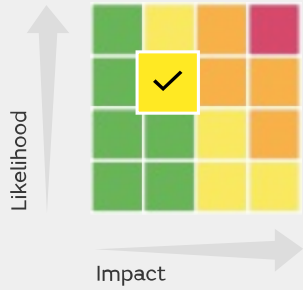
### Further details

A combination of showery rain, melting snow and very cold surfaces will lead to a risk of icy surfaces across the area.

What should I do?

Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier than normal. Not needing to rush, reduces your risk of accidents, slips, and falls.

If you need to make a journey on foot, try to use pavements along main roads which are likely to be less slippery.



Medium likelihood of low impacts

Yellow warning
**Ice**

Between
**17:00 Fri 19 Jan 2024** and
**09:00 Sat 20 Jan 2024**

## Further Details (continued)

Similarly, if cycling, try and stick to main roads which are more likely to have been treated.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

Be prepared for weather warnings to change: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
